

NEED SEPTIC SYSTEM ASSISTANCE?

You May Qualify for Up to $8,000

Financial assistance is available to **eligible homeowners** to repair or replace failing septic systems within the Lampasas River watershed.

PROGRAM BENEFITS

- Up to $8,000 in financial assistance
- Covers design, permitting, and installation
- Helps protect your property and local water quality

PROGRAM OVERVIEW

This grant supports efforts to **improve water quality** in the Lampasas River by assisting homeowners with necessary septic system repairs or replacements. The program is administered through a partnership between Texas A&M AgriLife Extension and the Lampasas River Watershed Partnership.

ELIGIBILITY REQUIREMENTS

Applicants must:

- Reside within the Lampasas River watershed
- Own the home as a primary residence and must be occupied for the majority of the year
- Have a failing, inadequate, or non-functioning septic system
- Apply for an existing home (new construction not eligible)

APPLICATION PRIORITIZATION

Applications will be evaluated based on:

- Proximity to impaired water bodies
- Severity of system failure
- Order of application submission

ELIGIBLE AREA

Homes must be located within the Lampasas River watershed, which includes portions of: Bell, Burnet, Coryell, Hamilton, Lampasas, Mills, and Williamson Counties. Visit www.lampasasriver.org to view the watershed map and confirm eligibility.

Contact Information:

To request an application or learn more:

Phone: 254-774-6008 | **Email:** lprcin@brc.tamus.edu

Website: www.lampasasriver.org | **Limited Funding Available**

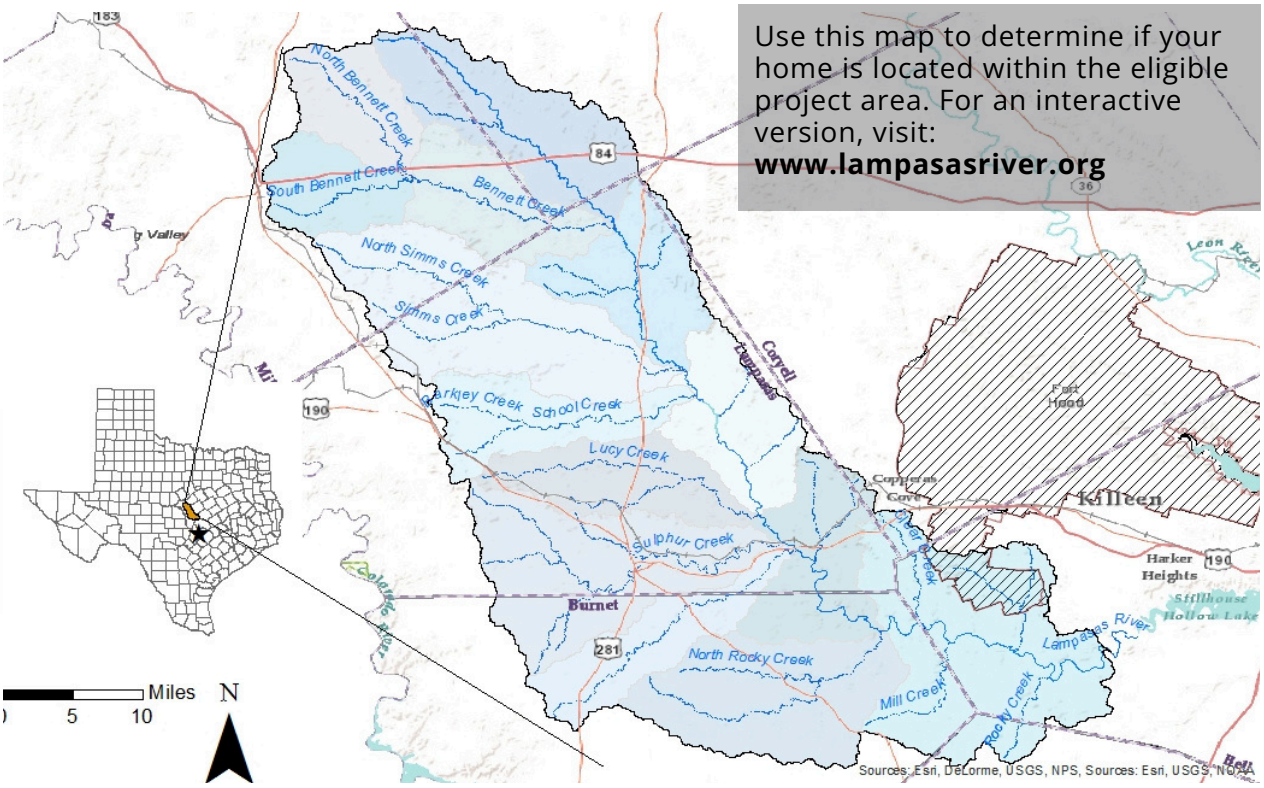

Applications are accepted on a rolling basis until funds are exhausted

This project has been funded by the United States Environmental Protection Agency under assistance agreement (**123456789**) to the Texas Commission on Environmental Quality.

CHECK YOUR ELIGIBLITY & LEARN MORE

Determine if your home qualifies for septic system assistance within the Lampasas River watershed.

LAMPASAS RIVER WATERSHED MAP

WHO SHOULD APPLY

This grant program is intended for homeowners who:

- Are experiencing septic system failure (backup, odor, or surfacing water)
- Have an older, improperly functioning system
- Want to protect their property and nearby waterways
- May not have the financial resources for full replacement
- Helps protect your property and local water quality

WHAT TO EXPECT

Upon application:

- Your system will be evaluated by a licensed professional with Texas A&M AgriLife Extension

If selected for funding:

- You will select a licensed installer to provide a cost estimate for repairs or full system replacement, including design, permitting, installation, and decommissioning of existing system
- AgriLife Extension will coordinate with you and your selected contractor throughout the project
- Project purchasing and contracting will be managed through the AgriLife Extension
- AgriLife Extension will be pay the installer directly to the installer upon completion
- Homeowners are responsible only for any costs exceeding the grant amount
